SUMMARY

A Software Engineer trying to learn new things everyday. Most of my tech experience is focused on all the technologies shown in GitHub profile and I will be adding whatever I learn in the future into the stack.

TECHNICAL SKILLS

- **Programming Languages:**

  C++, Python, Java, Flutter, JavaScript, SQL, HTML& CSS.

- **Other Technologies:**

  LINUX, DBMS, Bootstrap, ReactJS, Git& Github.

PROJECTS

- **Sho3lat-Fikr website - ASP. Net Core MVC**

  As a member and an administrative in the Sho3lat-Fikr community, I worked on this web site to make it as a descriptor about it.

  Used technologies: MVC, C#, HTML, CSS& Bootstrap.

- **Shoaib Jadallah Portfolio**

  I have made this web site as a web profile -CV-, To improve my skills with HTML, CSS& JS, So that I can publish my progress and my work on it.

- **Light-Up project& Practice on CSS HTML JS**

  That's my practice in HTML, CSS& JS, You can find all of this in my Github profile.

- **Smart house - Engineering project management.**

- **SHERTEE clothes factory - Software Engineering.**

- **GYM web site - React**

  A project was developed as a practice in React framework.

  Used technologies: (HTML, CSS& JS) By React technology.
